walle-

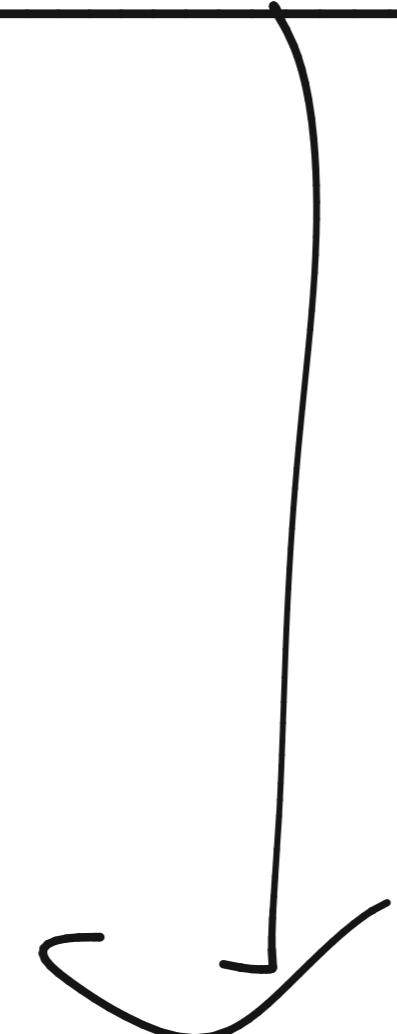

- withdraw

card (bank)

bitcoin?

details

- transaction (history)

- any outstanding payment?

inside chart

can part

earnings

original asset

- can topup

Vic card/
tag)

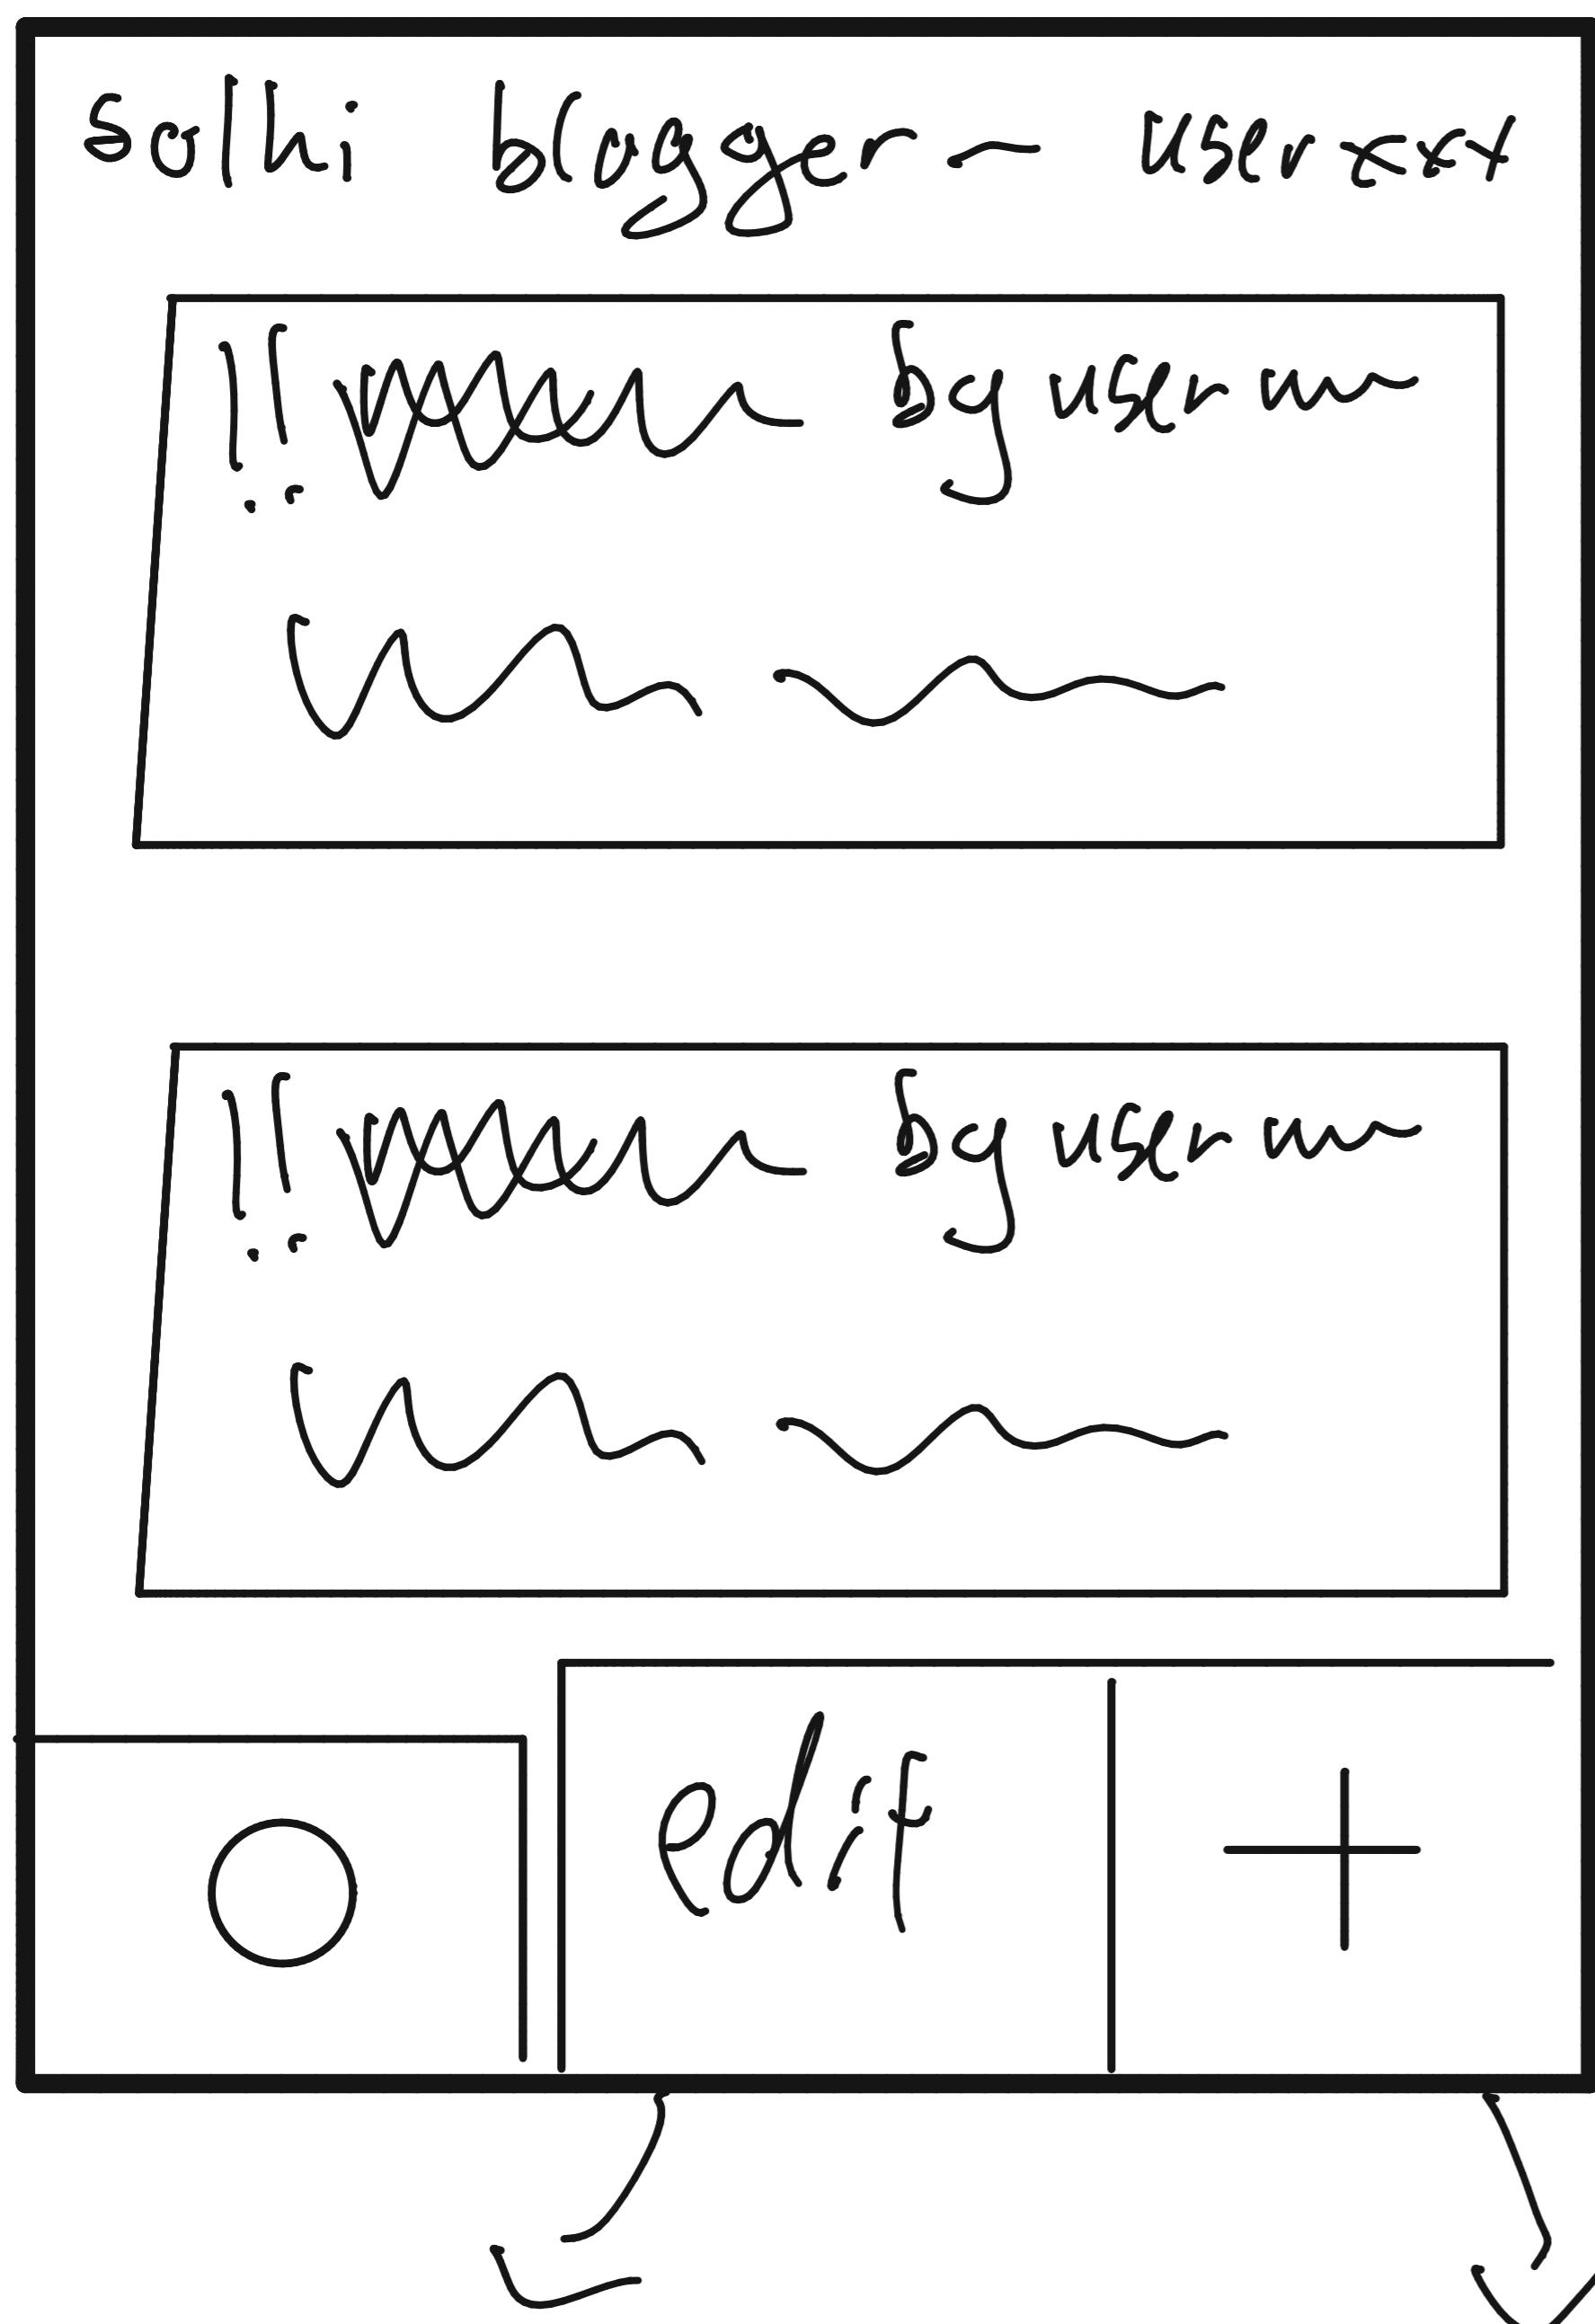

CASH

(some shop)

~ should can coop with other blockchain like bitcoin so that can topup and withdraw using this function

blog / post

just how blog works ↓

read what offers post

can edit and view post which is done by the user
